Department of Samurdhi Development

Post of IT consultant (Samurdhi Bank Computerization Project) (On Contract)

Are you a seasoned IT professional with a passion for leveraging cutting-edge technology to drive social impact and financial inclusion? Do you possess a Ph.D. level of expertise in computer science or a related field? If so, we have an exciting opportunity for you to lead our efforts in revolutionizing the Samurdhi Core Banking System!

About Us:

We are a leading micro finance firm dedicated to empowering communities through microfinance solutions. Our partnership with the Samurdhi program reflects our commitment to fostering economic empowerment and social development at the grassroots level.

Position: IT Consultant

Responsibilities:

As a consultant, your primary responsibility is to ensure that Samurdhi Banks and Societies have a robust and efficient core banking system that meets their evolving needs and keeps them competitive in today's dynamic financial landscape. Your key tasks include:

- Strategic Advisory:

Provide strategic advice on leveraging existing banking software to align with the business objectives of Samurdhi Banks and Societies.

- Technical Expertise:

Assist senior management of the Samurdhi Development Department by offering necessary technical expertise and guidance for the successful implementation of the bank computerization project.

- Requirements Analysis:

Analyze the requirements of Samurdhi Banks and Societies, advising on steps for software development to streamline manual processes as per specific needs.

- Standardization:

Standardize user roles and permissions within the software system.

Establish standardized methodologies to transition from manual processes within Samurdhi Banks and Societies.

- Project Planning:

Develop a comprehensive plan to complete computerization of Samurdhi Banks and Societies, eliminating manual systems.

- Policy Formulation:

Formulate backup policies and disaster recovery strategies.

Develop procedures for conducting regular training programs for bank staff.

- Software Development Collaboration:

Work with the Samurdhi Development Department and Software Development Team to integrate requirements into software updates and new introductions.

Ensure existing systems are updated according to customer needs and departmental decisions.

- Issue Resolution:

Address software implementation issues promptly and ensure timely resolution.

- Audit and Risk Management:

Introduce procedures for conducting system audits.

Design strategies to identify and mitigate risks related to software and data security.

- Regulatory Compliance:

Advise top management on updating software to comply with regulatory changes.

- Continuous Improvement:

Continuously monitor the operation of core banking software.

Requirements:

- Ph.D. in Computer Science, Information Technology, or a related field, with a focus on relevant areas such as distributed systems, database management, or fintech.
- Minimum of 10 years of experience in designing and implementing core banking systems, preferably in the context of community development or microfinance.
- Proven track record of successful project delivery within the public sector or non-profit organizations, demonstrating an understanding of the unique challenges and opportunities in these sectors.
- Proficiency in programming languages such as Java, Python, or C++, as well as experience with database management systems (e.g., MySQL, Oracle).

- Strong analytical and problem-solving skills, with a demonstrated ability to think strategically and execute complex projects.
- Excellent communication and interpersonal skills, with the ability to effectively engage with diverse stakeholders at all levels.

Salary: (Negotiable)

How to Apply:

Candidates are invited to send their detailed CV to adsamurdhi2014@gmail.com or by post with the contact details of two non- related referees, to reach us within 14 days of this advertisement. Please mention the post applied for on the top left corner of the envelope or in the subject line of the e-mail.
